ABOUT US

ABOUT US

PT Sinar Prapanca, commonly known as SP, was established through passionate discussions between two founders who shared a vision of establishing a leading security provider company. This led to the formation of SP, and with an esteemed clientele including PT. Timah, GBK Senayan, RS. Fatmawati, HSBC Bank, Kimia Farma, Thamrin Nine, MNC TV and Taman Impian Jaya Ancol in its early days, SP quickly gained recognition in the industry.

Over the years, SP has grown into a licensed security service provider with expertise in Law Enforcement, Military, Human Resources, Finance and Information Technology. Their ISO certifications for Quality Management System (ISO 9001:2015), Occupational Health & Safety Management System (ISO 45001:2018) and Anti-Bribery

Management System (ISO 37001:2016) attest to their commitment to delivering high-quality services. Additionally, they are honored to be esteemed members of ABUJAPI and KADIN.

With a substantial workforce consisting of thousands of dedicated personnel, SP has gained extensive operational experience in nearly every region of Indonesia. Their customer-centric approach aims to provide added value and build long-term, trustworthy partnership that benefit both parties. SP's unwavering commitment to excellence has allowed them to remain to a trusted and preferred choice in the industry.

SERVICES

CRIME PREVENTION

At SP, we have the capability to formulate a Crime Prevention Program by utilizing current area zoning, with a focus on the most likely threat spectrum. This approach enables a controlled implementation of targeted preemptive, preventive and repressive actions, facilitated by early detection and prevention.

1. INCREASING PERCEIVED EFFORTS

- a. Target Hardening
- b. Access Control

2. INCREASING PERCEIVED RISKS

- a. Entry/ Exit Screening
- b. Formal Surveillance

3. REDUCING ANTICIPATED REWARDS

- a. Target Removal
- b. Reducing Temptations

IN THE CRIME PREVENTION EFFORTS THAT WE UNDERTAKE

We employ three approaches, namely: Increasing Perceived Efforts (how to enhance the perception that committing a crime will require significant effort, with the use of access control, for example), Increasing Perceived Risk (how to heighten the perceived risk felt by potential criminals, such as installing CCTV, alarms, or conducting checks by guards), and Reducing Anticipated Rewards (how to diminish or make it challenging for potential criminals to gain benefits from committing crimes, such as securing valuables with the use of safes, etc.).

Moreover, as the core support for crime prevention, we incorporate Risk Assessment, Security Training, and Information Security.
